

Public Notice

HVP Plantations wish to advise of upcoming harvest and haulage operations, planned to commence in the **Stan's plantation** from June to September.

The operations will see the harvest of all the plantation over the winter period for subsequent transport to the Hyne Timber and Visy Paper mills for processing. The logs are turned into craft, newspaper and sawn timber products.

During this time Stan's Hut will be closed and access to the plantation area is not permitted.

Felling and processing trees, and loading trucks are hazardous activities. Large machinery is involved and the ability of operators to hear and see beyond the immediate area of operations is often restricted. To keep everyone safe, signage will be in place on ground to highlight the worksite location. Please adhere to closure of the worksite.

Log trucks will be travelling along Avondale and Cravensville roads. The impacts of machinery and associated machinery will be minimised as far as practical. However, increased activity can be expected and care should be exercised around the boundaries of the plantation, at road intersections and at points of truck access from the plantation onto the local roads.

If you would like to communicate with the log truck drivers they operate on UHF channel 40 when on the sealed roads and channel 25 while in the plantation.

All of our operations are subject to fire and weather constraints and customer demand, so may change.

In an effort to help us improve our communication of operations, HVP Plantations encourage you to contact us through our website www.hvp.com.au with any feedback.

If you have any queries or would like to draw our attention to any relevant matters regarding upcoming operations please contact:
